

Alex Couley & Mike Verner

Gippsland

Region 5: Area Mental Health Service

“The use of assessment science to improve the art of intervention”

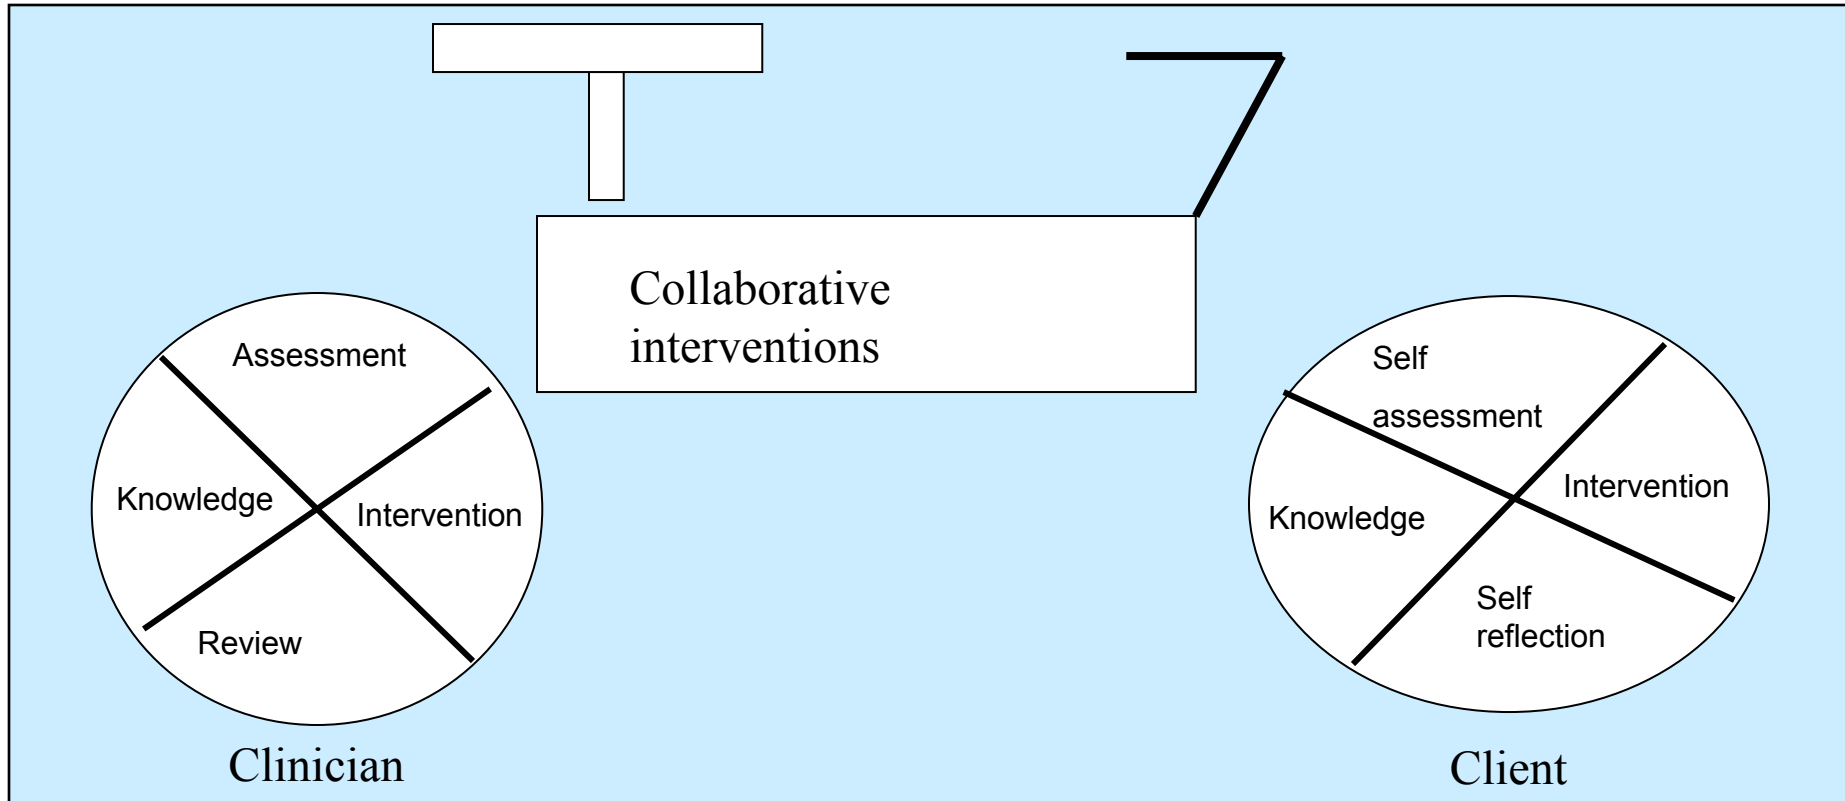

“Measurements are not to provide numbers but insight.”

-- Ingrid Bucher

- Client referred
- Build working alliance and file summary
- Baseline Data collected and collated
- 3 month review- establish possible goals or interventions
- 3month assessment Data (HONOS, LSP, BASIS 32 and FOC)

- MDT review
- Utilise assessment tools
- Objective and subjective clinical evidence plus assessment tools used to formulate focussed interventions

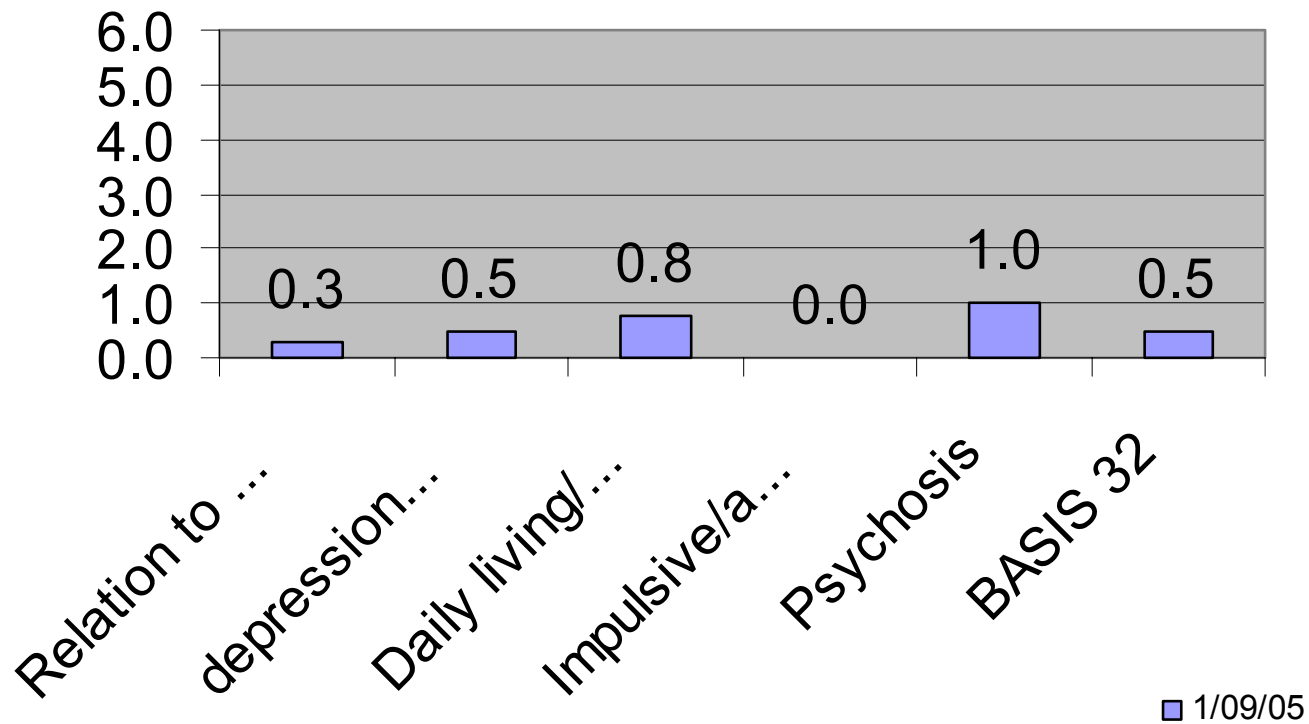

The Parallel Cyclic Application of Outcome Measures
